

SPORTING INFLUENCE

Improving Social Skills Through Sport

PE With Mr Sherwood

This half term Mr. Sherwood has been working with Class 2 and Class 3 children in Football and Netball.

In Football we have been worked on a range of skills from developing passing and control to goalkeeping and defending. The children have looked to apply their learning to small-sided games identifying when and where to use the different skills. In addition to this we have looked at developing teamwork skills recognising how it can help in a game.

In Netball both classes have shown an improvement in their passing and receiving skills. We have investigated gameplay and understood the rules of the game. The children have looked at how skills can be transferred from football to netball.

Alongside this we have been developing our social skills of body language, communication, determination, encouragement, and respect.

In the After School Club we have played a wide range of sports including Football, Benchball, Dodgeball and Handball. The children have had great fun and even led some of the different activities.

Have a great Christmas and see you in the New Year!

The children have loved developing their skills in football.

The children have developed their shooting in Netball.
