Helperbees Preschool

Small school, big heart

6th March 2024

Dear Parent/Carer,

Infection Control Procedures

We are reviewing our 'Infection Control Procedures' across school (including Helperbees) as advised by the recent measles and respiratory illnesses guidance. This is in addition to our daily cleaning routine we have across school.

The extra measures we are putting in place are:

- Routine hand hygiene- on entry, before food, every toilet visit, with soap and water.
- Ventilation in classroom at all times.
- 'Catch it, bin it, kill it' – using tissues and disposing of them.
- Desks will be disinfected at lunchtimes.
- Touch points will be cleaned at points in the day.
- Deep cleaning during the holidays.

Please could we ask that you also help by ensuring that:

- If your child has a fever, they stay at home until they are well.
- If your child needs antibiotics, they must have the first 48 hours off school, then they can return.

Generally, there are lots of germs in schools and this is normal, but if we can minimise illnesses through good hygiene practices, we can protect our vulnerable adults and children in school.

Thank you for your continued support and please speak to me or the School Office if you have any queries.

Yours Sincerely,

Mrs Anderson
